RESOURCES FOR ACHIEVING SEX EQUITY

DEFINITIONS

Definitions that are used in relation to sex equity in education include:

Sexism: Any attitude, action or institution that subordinates or assigns roles to a person or group because of their sex. Sexism can be individual, cultural or institutional; intentional or unintentional. There can also be sexism by omission. Originally, this term was used to describe practices that discriminate against girls and women, but it has been expanded to include any usage that unfairly delimits the aspirations or attributes of either sex.

Sex Discrimination: Sexist practices, policies or procedures that are specifically prohibited by law.

Sex Bias: An attitude or behavior which reflects adversely upon a person or group because of sex, but may not be covered under present legislation.

Sex Fair: Practices and behaviors that treat males and females similarly, may imply separate but equal.

Sex Affirmative: Programs, policies or procedures that attempt to overcome the effects of sex discrimination.

Affirmative Action: Programs designed to increase opportunities for women, minorities and under-represented groups.
